MUHAMMAD SHIFAN S

Full Stack Developer (MERN)

muhammasshifan@gmail.com | +916381403151 | Linkedin | Github | Portfolio

PROFESSIONAL SUMMARY

Motivated entry-level Full Stack Developer with hands-on experience building web applications using the MERN stack. Skilled in developing responsive user interfaces, REST APIs, and database-driven applications through practical projects. Currently expanding my technical knowledge in React Native, AWS Cloud, and Artificial Intelligence, Machine Learning, and Deep Learning (AI/ML/DL). Eager to contribute to real-world software development projects while continuously improving my skills.

INTERNSHIP EXPERIENCE

1. Full Stack Development — 10th Jun 2026 – 10th Aug 2026
Vinsup Infotech Private Limited — Coimbatore, India
- Developed a full-stack Learning Management System (LMS) using MERN stack technologies.
- Implemented role-based dashboards, batch management, attendance tracking, and syllabus management.

2. Web Development — 20th Apr 2026 – 20th Jul 2026
Zidio Development — Remote
- Developed a full-stack Expense Tracker application using React.js, Node.js, Express.js, and MongoDB.
- Implemented user authentication, expense management, and interactive dashboards.

3. Web Development Intern — 5th Feb 2025 – 7th Mar 2025
NoviTech R&D Private Limited — Remote
- Developed Explore Tamil Nadu, a responsive frontend website showcasing Tamil Nadu destinations.
- Implemented website layouts and user interfaces using frontend technologies.

4. Web Development — 15th Mar 2025 – 15th May 2025
SkillForge E-Learning Solutions Private Limited — Remote
- Developed a responsive portfolio website using frontend technologies.
- Implemented reusable UI components and responsive layouts for different screen sizes.
- Optimized web applications for maximum speed and scalability, ensuring seamless user experiences across desktops, tablets, and mobile devices.

EDUCATION

Bachelor of Commerce (Computer Applications) — 2023 – 2026
SRM Trichy Arts and Science College, Bharathidasan University — Trichy, India
CGPA: 7/10 | Percentage: 68%

Master of Computer Applications (MCA - Online) — 2026 – present
Bharathiar University, Coimbatore — Coimbatore, India

TECHNICAL SKILLS

Programming
JavaScript (ES6+)

Frontend
HTML5, CSS3, Bootstrap, React.js

Backend
Node.js, Express.js

Database
MongoDB

Tools
Docker, Jira, postman, Figma, Git, GitHub, VS Code, MS Office

Currently Learning
React Native, Jenkins, kubernetes, Cloud Computing (AWS), Artificial Intelligence (AI), Deep Learning (DL), Machine Learning (ML)

CERTIFICATIONS

Vinsup Skill Acadey
- **Course:** DevStack Engineer
- **Duration:** 10-06-2026 to 02-09-2026

NoviTech R&D Pvt Ltd
- **Course:** Full Stack Development (MERN)
- **Duration:** 05-02-2025 to 15-03-2025

Zidio Development
- **Course:** Web Development
- **Duration:** 20-04-2026 to 20-07-2026

SkillForge E-Learning Solutions Pvt Ltd
- **Course:** Web Development
- **Duration:** 15-03-2025 to 15-05-2025

PROJECTS

1. Learning Management System July 2026 – Aug 2026
Vinsup Skill Academy (LMS)
- Architected a scalable backend system supporting 3 distinct user roles (Admin, Employee, Student) secured with JWT authentication.
- Designed 20 Mongoose data models covering course & batch scheduling (Course, Batch, Syllabus, Schedule), student assessments (Assignment, Quiz, QuizResult), and HR/attendance workflows (Attendance, LeaveRequest, Task, Ticket, Report).
- Implemented real-time communication schemas (PrivateMessage, BatchMessage, GroupMessage) powered by Socket.io, file uploads using Multer, and automated background job scheduling using Node-Cron

2. Stock & Invoice Manager Aug 2026 – Sep 2026
for AS Marketing (Stock & Invoice Manager)
- Developed a full-stack warehouse inventory and GST-compliant invoicing web application with role-secured authentication.
- Designed modular frontend workflows for stock management, dynamic bill generation, invoice history, and print-ready GST receipts.
- Built custom backend utilities including for automated invoice amount-to-words conversion, for dispatching digital bills, and environment configuration validation.

3. E-Commerce Website In Progress – payment integration pending.
for Nathan Coffee (E-Commerce website)
- Built a full-stack e-commerce web application for Nathan Coffee featuring an interactive product catalog cart management, and responsive Vite frontend builds (client/dist).
- Integrated Razorpay Payment Gateway to handle secure online customer transactions, supporting UPI, cards, and net banking.
- Implemented end-to-end payment workflows including backend order generation (order_id), client-side Razorpay checkout modal integration, and cryptographic payment signature verification (HMAC SHA256) before updating order status in MongoDB.

4. Fit Nadu Application In Progress – core development & testing ongoing.
Cross-Platform Applications
- Currently developing a 3-tier fitness ecosystem featuring a cross-platform React Native mobile app (Frontend), a React.js web admin portal (AdminPanel), and a centralized Node.js/Express backend.
- Designed and implemented 7 MongoDB schemas (User, Fitness, Food, Gym, Trainer, Supplement, Notification) along with JWT-secured REST APIs.
- Built mobile screens for calorie/workout tracking (MyFitnessScreen), gym discovery (ExploreGymScreen), trainer profiles (PersonalTrainerScreen), and supplement browsing (BuySupplementScreen), alongside a full Admin Dashboard.
- Integrated ImageKit with client-side caching for optimized image delivery and Expo/Firebase Push Notifications.

PROFESSIONAL DEVELOPMENT & CONTRIBUTIONS

Continuously expanding my technical expertise by learning and exploring emerging technologies, including Python, Artificial Intelligence, Machine Learning, and Deep Learning, while strengthening my full-stack development and software engineering skills.
