MUHAMMAD SHIFAN S

Full Stack Developer (MERN) | Entry-Level Software Engineer

muhammasshifan@gmail.com | +916381403151 | Linkedin | Github | Portfolio

PROFESSIONAL SUMMARY

Motivated Full Stack Developer specializing in the MERN stack. Experienced in building scalable, responsive web applications and seamless mobile experiences. Proficient in RESTful API development, containerization with Docker, and modern CI/CD workflows. Passionate about delivering strong and scalable full-stack web experiences.

INTERNSHIP EXPERIENCE

1. Full Stack Development — 10th Jun 2026 – 10th Aug 2026
Vinsup Infotech Private Limited — Coimbatore, India

- Completed an intensive DevStack Internship program focusing on industry-relevant technical competencies and practical execution.
- Successfully translated theoretical knowledge into real-time project execution, building hands-on applications and practical assignments.
- Demonstrated strong analytical, problem-solving, and collaborative skills while adhering to professional work ethics and quality delivery.

2. Web Development — 20th Apr 2026 – 20th Jul 2026
Zidio Development — Thanjavur, India

- Completed a 3-month Web Development Internship focused on responsive frontend design and building dynamic user interfaces using React.js.
- Designed and developed a fully-functional full-stack Expense Tracker web application featuring secure user authentication, MongoDB integration, and interactive dashboards.
- Translated UI designs into reusable React components and optimized web applications for cross-browser compatibility and seamless user experiences across all devices.

3. Web Development Intern — 5th Feb 2025 – 7th Mar 2025
NoviTech R&D Private Limited — Coimbatore, India

- Developed responsive web pages using MERN Stack
- Worked on real-world web development tasks and project implementations.
- Improved understanding of frontend development, debugging, and UI design principles.

4. Web Development — 15th Mar 2025 – 15th May 2026
SkillForge E-Learning Solutions Private Limited — Thanjavur, India

- Developed fully responsive and dynamic web user interfaces using React.js, focusing on clean layout structures and mobile-first design principles.
- Translated UI/UX wireframes into reusable, high-performance React components with cross-browser compatibility.
- Optimized web applications for maximum speed and scalability, ensuring seamless user experiences across desktops, tablets, and mobile devices.

EDUCATION

Bachelor of Commerce (Computer Applications) — 2023 – 2026
SRM Trichy Arts and Science College, Bharathidasan University — Trichy, India
CGPA: 7/10 | Percentage: 68%

Master of Computer Applications (MCA - Online) — 2026 – present
Bharathiar University, Coimbatore — Coimbatore, India

TECHNICAL SKILLS

Programming
JavaScript (ES6+)

Frontend
HTML5, CSS3, Bootstrap React.js, React Native

Backend
Node.js, Express.js

Database
MongoDB

Tools
Docker, Jira, postman, Figma, Git, GitHub, VS Code

CERTIFICATIONS

Vinsup Skill Acadey
- **Course:** DevStack Engineer
- **Duration:** 10-06-2026 to 02-09-2026

NoviTech R&D Pvt Ltd
- **Course:** Full Stack Development (MERN)
- **Duration:** 05-02-2025 to 15-03-2025

Zidio Development
- **Course:** Web Development
- **Duration:** 20-04-2026 to 20-07-2026

SkillForge E-Learning Solutions Pvt Ltd
- **Course:** Web Development
- **Duration:** 15-03-2025 to 15-05-2025

PROJECTS

Learning Management System July 2026 – Aug 2026
Vinsup Skill Academy (LMS)
- Engineered a full-stack Learning Management System (MERN) featuring secure, role-based dashboards for admins, trainers, and students.
- Developed core operational modules for batch tracking, attendance, and syllabus management, fully secured with JWT authentication.
- Streamlined deployment processes by establishing an automated CI/CD pipeline using GitHub, Netlify (Frontend), and Render (Backend).

Stock & Invoice Manager Aug 2026 – Sep 2026
AS Marketing (Stock & Invoice Manager)
- Developed a customized inventory and billing web application for AS Marketing, a footwear warehouse, to streamline daily operations and digitize business records.
- Engineered core functionalities including real-time stock tracking across footwear categories, automated invoice generation, and daily transaction monitoring.
- Designed a responsive, user-friendly dashboard and successfully deployed the application on Netlify to ensure seamless and efficient warehouse management.

E-Commerce Website Sep 2026 – Oct 2026
Nathan Coffee Mart (E-Commerce website)
- Engineered a full-stack e-commerce web application for Nathan Coffee Mart using the MERN stack, delivering seamless product browsing, category filtering, and cart management.
- Implemented secure user authentication and dedicated admin workflows to efficiently manage real-time inventory updates, customer orders, and product listings.
- Designed an intuitive, responsive UI optimized for mobile and desktop, successfully deploying the frontend on Netlify for fast loading and high availability.

Fit Nadu Application Ongoing
Cross-Platform Applications

PROFESSIONAL DEVELOPMENT & CONTRIBUTIONS

Continuously expanding my technical expertise by learning and exploring emerging technologies, including Python, Artificial Intelligence, Machine Learning, and Deep Learning, while strengthening my full-stack development and software engineering skills.
